CHILD SAFETY SEAT HEIGHT AND WEIGHT CHART

Child's Name: _____

Age: _____

Height: _____

Best Practices for Child Safety Seat Use

Seatbelt laws have changed. Children under 8 years old or under 57" (4'9") are now required to be in a booster seat. Buckle children in the proper seat for his or her age, height and weight. Below are some guidelines to help parents select the restraint that's right for their child. Check the child safety seat manufacturer's instructions to be sure you install the seat properly.

	Rear Seat convertible Seat with Harness Required	Rear Seat Belt Boost- er Seat Required	Rear Seat Lap & shoulder belt	
Seat Placement	Rear Only	Rear Only	Rear Only	
Age	Over 1 year old	4 years – 8 years	8 years – 12 years	
				
	Convertible Seat with Harness	Belt Booster Seat	Lap and Shoulder Belt Only
